چیئر مین کا جائزہ

کمپنیز ایکٹ ۲۰۱۷ اور لسٹڈ کمپنیز (کارپوریٹ گورننس کا ضابطہ) ریگولیشنز، ۲۰۱۹ کی تعمیل میں، ۳۰ جون ۲۰۲۶ کو ختم ہونے والے مالی سال کے لیے چیئر مین کا جائزہ پیش کرنا میرے لیے باعثِ اعزاز ہے۔

زیرِ جائزہ سال ہماری کمپنی کے لیے بتدریج بہتری کا دور ثابت ہوا، جو ٹیکسٹائل کی صنعت اور وسیع تر معیشت کے لیے دو مشکل سالوں کے بعد آیا۔ اگرچہ مارکیٹ کے حالات مشکل رہے، لیکن کمپنی نے سال کے دوران نمایاں پیش رفت کی؛ فروخت میں بہتری نے ہمارے مضبوط آپریشنل نظم و ضبط کی عکاسی کی۔ سال کے دوران حاصل ہونے والی یہ پیش رفت ہمارے کاروبار کی قوتِ مدافعت اور پوری تنظیم میں ہماری ٹیموں کے عزم کی عکاس ہے۔ ہم اپنے بنیادی کاروباری امور کو مستحکم کرنے، مصنوعات کے معیار کو برقرار رکھنے، صارفین کو مؤثر خدمات فراہم کرنے اور مارکیٹ کے بدلتے ہوئے حالات پر ذمہ داری سے رد عمل ظاہر کرنے پر توجہ مرکوز رکھے ہوئے ہیں۔ پائیداری کے حوالے سے ہمارا نقطہ نظر ہمارے کام کرنے کے انداز اور طویل مدتی قدر تخلیق کرنے کے عمل کا ایک اہم حصہ ہے۔

میں اپنے ملازمین کی لگن اور خدمات کا اعتراف کرنا چاہوں گا، جن کی کاوشیں ہماری مسلسل ترقی میں مرکزی حیثیت رکھتی ہیں۔ میں اپنے صارفین، کاروباری شراکت داروں، شیئر ہولڈرز، بینکرز، ریگولیٹری حکام اور دیگر اسٹیک ہولڈرز کا بھی ان کے مسلسل اعتماد اور تعاون پر شکریہ ادا کرتا ہوں۔

DIRECTOR'S REPORT

For the Year Ended June 30, 2026

The Directors of Hala Enterprises Limited are pleased to present the 54th Annual Report of the Company together with the audited financial statements for the year ended June 30, 2026.

The year under review marked another important stage in Hala's growth and development. Following the recovery and stabilisation achieved in the preceding year, the Company entered FY2025–26 with a clear strategy to grow its export business, improve its product mix and prepare its manufacturing operations for a significant expansion in production capacity.

Performance and Business Review

During the first half of the year, the Company achieved strong organic growth while simultaneously preparing for the commissioning of its new AirJet weaving capacity. Commercial production on the newly installed machines commenced in February 2026, marking the transition from a period of recovery and preparation to one of growth and scaling. This strategy had already begun producing tangible results by the third quarter, with higher export volumes and an increased contribution from value-added products.

The momentum continued through the remainder of the year, with the Company achieving revenue growth of approximately 53% over FY2024–25. Gross profit increased by approximately 41%, while profit before income tax and levies improved by approximately 22%. Finance costs declined by approximately 29%, despite the substantially higher level of business activity.

FY2025–26 — Growth at a Glance: Year on Year Change

Key Highlights

DIRECTOR'S REPORT

Investing in the Future

The Company continued its programme of self-funded expansion and technological upgradation, investing approximately Rs. 136 M in property, plant and equipment during the year.

The principal development was the commissioning of new high-speed AirJet terry weaving machinery, including advanced jacquard capabilities. The investment has increased weaving capacity, improved productivity and product quality, and enhanced the Company's ability to manufacture more sophisticated and higher-value products for international markets.

The Company also continued to benefit from earlier investments in energy optimisation, including its 440 KW solar power plant and bio-fuel-based thermal systems. These initiatives have reduced exposure to conventional energy costs and strengthened the resilience and sustainability of the Company's manufacturing operations.

The Directors believe that the investments undertaken over the past two years have materially strengthened Hala's manufacturing platform and positioned the Company to pursue a larger and more diversified export business.

Challenges and Outlook

The year was not without challenges. Pakistan's textile export sector continued to face elevated input and energy costs, intense competition from regional producers and disruptions to international shipping and supply chains. Higher oil prices due to the ongoing War in the Middle East also posed a major threat to cost control and heavily disrupted ongoing shipments to the MENA region. These pressures were particularly relevant during a period in which the Company was simultaneously increasing production and export volumes. Nevertheless, Hala ended FY2025–26 with a substantially larger revenue base, expanded manufacturing capacity and a strengthened product offering.

The Company's journey over the past few years can increasingly be viewed as a progression from recovery to stabilisation, followed by scaling. With the expanded production platform now substantially in place, management's focus in the coming year will increasingly shift towards optimisation — improving capacity utilisation, manufacturing efficiency and margins while continuing to develop higher-value export business. This progression is consistent with the strategic direction communicated by management during the year. The Directors remain cautiously optimistic regarding the Company's prospects and believe that its strengthened manufacturing base, established export relationships and continued focus on value-added products provide a sound foundation for sustainable long-term growth.

Corporate Governance and Statutory Matters

The Company remains committed to maintaining high standards of corporate governance, transparency, internal control and regulatory compliance.

DIRECTOR'S REPORT

The Directors confirm that the financial statements have been prepared in accordance with applicable accounting and reporting standards and present fairly the state of affairs of the Company. Proper books of account have been maintained, appropriate accounting policies have been consistently applied, and there are no significant doubts regarding the Company's ability to continue as a going concern.

The Statement of Compliance with the Listed Companies (Code of Corporate Governance) Regulations, pattern of shareholding, details of Board and Committee meetings, related-party transactions and other statutory disclosures required under applicable laws and regulations are presented separately in the Annual Report.

Acknowledgments

The Board extends its sincere appreciation to the Company's customers, shareholders, bankers, suppliers and business partners for their continued confidence and support.

ڈائریکٹر رپورٹ

برائے سال اختتام 30 جون 2026

ہالا انٹرپرائزز لمیٹڈ (Hala Enterprises Limited) کے بورڈ آف ڈائریکٹرز کو یہ پیش کرتے ہوئے مسرت محسوس ہو رہی ہے کہ وہ کمپنی کی 54 ویں سالانہ رپورٹ اور 30 جون 2026 کو ختم ہونے والے مالی سال کے آڈٹ شدہ مالیاتی گوشوارے پیش کر رہے ہیں۔

زیر جائزہ مالی سال کمپنی کے لیے بحالی، استحکام اور توسیع کے سفر میں ایک اہم سنگ میل ثابت ہوا۔ گزشتہ سال حاصل ہونے والی کاروباری بحالی اور مالیاتی استحکام کو مزید مستحکم کرتے ہوئے، کمپنی نے مالی سال 2025-26 کا آغاز ایک واضح اور مربوط حکمت عملی کے ساتھ کیا، جس کا بنیادی مقصد برآمدی کاروبار کو وسعت دینا، مصنوعات کے مکس کو بہتر بنانا، ویلیو ایڈڈ مصنوعات کا حصہ بڑھانا اور پیداواری صلاحیت میں نمایاں اضافہ کرنا تھا۔

کاروباری کارکردگی اور جائزہ

مالی سال کی پہلی ششماہی کے دوران کمپنی نے مضبوط آرگینک گروتھ کا مظاہرہ کیا اور اس کے ساتھ ساتھ نئی AirJet Terry Weaving پیداواری صلاحیت کو مکمل طور پر فعال کرنے کے لیے ضروری اقدامات جاری رکھے۔ نئی نصب شدہ مشینری پر تجارتی پیداوار کا آغاز فروری 2026 میں ہوا، جو کمپنی کے لیے تیاری اور بحالی کے مرحلے سے نکل کر ترقی، توسیع اور قدر میں اضافے کے نئے مرحلے میں داخل ہونے کی علامت تھا۔

نئی پیداواری صلاحیت کے فعال ہونے کے اثرات مالی سال کی تیسری سہ ماہی سے نمایاں ہونا شروع ہوئے، جس کے نتیجے میں برآمدی حجم میں اضافہ ہوا اور ویلیو ایڈڈ مصنوعات کا حصہ مزید بہتر ہوا۔ یہ مثبت رجحان مالی سال کے اختتام تک جاری رہا۔

نتیجتاً، مالی سال 2025-26 میں کمپنی نے مالی سال 2024-25 کے مقابلے میں ریونیو میں تقریباً 53% فیصد اضافہ حاصل کیا۔ اسی عرصے کے دوران مجموعی منافع (Gross Profit) میں تقریباً 41% فیصد اضافہ ہوا، جبکہ انکم ٹیکس اور لیویز سے قبل منافع میں تقریباً 22% فیصد بہتری ریکارڈ کی گئی۔ کاروباری سرگرمیوں اور پیداواری حجم میں نمایاں اضافے کے باوجود کمپنی مالیاتی نظم و ضبط برقرار رکھنے میں کامیاب رہی اور مالیاتی اخراجات میں تقریباً 29% فیصد کمی واقع ہوئی۔ یہ نتائج کمپنی کی آپریشنل کارکردگی، بہتر مصنوعات کے مکس، پیداواری صلاحیت میں اضافے اور لاگت کے مؤثر انتظام کی عکاسی کرتے ہیں۔

مستقبل کی سرمایہ کاری اور تکنیکی ترقی

کمپنی نے اپنے اندرونی وسائل کو بروئے کار لاتے ہوئے توسیع، جدید کاری اور تکنیکی اپ گریڈیشن کا پروگرام جاری رکھا۔ مالی سال کے دوران پراپرٹی، پلانٹ اور آلات (Equipment Plant, Property) میں تقریباً 136 ملین روپے کی سرمایہ کاری کی گئی۔ اس سرمایہ کاری کا سب سے اہم حصہ جدید اور تیز رفتار AirJet Terry Weaving مشینری کا آغاز تھا، جس میں جدید Jacquard ٹیکنالوجی کی صلاحیتیں بھی شامل ہیں۔ اس سرمایہ کاری سے کمپنی کی ویونگ صلاحیت میں نمایاں اضافہ ہوا، پیداواری کارکردگی اور مصنوعات کے معیار کو بہتر بنانے میں مدد ملی، اور بین الاقوامی منڈیوں کی ضروریات کے مطابق زیادہ جدید، متنوع اور اعلیٰ قدر کی حامل مصنوعات تیار کرنے کی صلاحیت میں اضافہ ہوا۔ کمپنی گزشتہ برسوں میں توانائی کے مؤثر استعمال کے لیے کی گئی سرمایہ کاری سے بھی مسلسل استفادہ کر رہی ہے۔ اس میں کمپنی کا 440 کلو واٹ سولر پاور پلانٹ اور بانیو فیول پر مبنی تھرمل سسٹمز شامل ہیں۔ ان اقدامات نے روایتی توانائی کے ذرائع پر انحصار اور توانائی کے اخراجات کے دباؤ کو کم کرنے کے ساتھ ساتھ پیداواری سرگرمیوں میں چمک، کارکردگی اور پائیداری کو بہتر بنانے میں بھی اہم کردار ادا کیا ہے۔ بورڈ آف ڈائریکٹرز کا ماننا ہے کہ گزشتہ دو سالوں کے دوران کی گئی سرمایہ کاری نے ہالا کے مینوفیکچرنگ پلیٹ فارم کو نمایاں طور پر مضبوط اور جدید بنایا ہے اور کمپنی کو اپنے برآمدی کاروبار کو مزید وسیع، متنوع اور اعلیٰ قدر کی حامل مصنوعات کی جانب منتقل کرنے کے لیے مضبوط بنیاد فراہم کی ہے۔

چیلنجز اور مستقبل کا لائحہ عمل

مالی سال 2025-26 چیلنجز سے مبرا نہیں تھا۔ پاکستان کے ٹیکسٹائل برآمدی شعبے کو بڑھتے ہوئے خام مال اور توانائی کے اخراجات، علاقائی پیداواری مراکز سے شدید مسابقت، بین الاقوامی شپنگ کے مسائل اور عالمی سپلائی چین میں رکاوٹوں کا سامنا رہا۔ مشرق وسطیٰ میں جاری جغرافیائی و سیاسی کشیدگی اور تنازعات کے باعث تیل کی قیمتوں اور بین الاقوامی لاگتوں پر پیدا ہونے والے دباؤ نے بھی کاروباری لاگت اور ترسیلی نظام کے لیے اضافی چیلنجز پیدا کیے۔ بالخصوص MENA خطے کے لیے شپمنٹ اور ترسیل میں پیدا ہونے والی رکاوٹوں نے برآمدی کاروبار کے انتظام کو مزید پیچیدہ بنایا۔

ان چیلنجز کے باوجود، ہالا نے مالی سال 2025-26 کا اختتام ایک زیادہ مضبوط ریونیوئیس، وسیع تر پیداواری صلاحیت، بہتر مصنوعات کے کس اور مضبوط برآمدی بنیاد کے ساتھ کیا۔

گزشتہ چند برسوں میں کمپنی کے سفر کو تین واضح مراحل میں دیکھا جاسکتا ہے: بحالی، استحکام اور توسیع۔ اب جبکہ توسیع شدہ مینوفیکچرنگ پلیٹ فارم بڑی حد تک اپنی جگہ قائم ہو چکا ہے، آنے والے مالی سال میں انتظامیہ کی توجہ آپریشنل آپٹیمائزیشن، پیداواری صلاحیت کے مؤثر استعمال، مینوفیکچرنگ ایفیشینسی، لاگت کے بہتر انتظام اور مارجن میں بہتری پر مرکوز رہے گی۔

کمپنی اعلیٰ قدر کی حامل اور ویلیو ایڈڈ برآمدی مصنوعات کے کاروبار کو مزید فروغ دینے، موجودہ صارفین کے ساتھ تعلقات کو مضبوط بنانے اور نئی بین الاقوامی منڈیوں میں کاروباری مواقع پیدا کرنے کے لیے اپنی کوششیں جاری رکھے گی۔

بورڈ آف ڈائریکٹرز کمپنی کے مستقبل کے امکانات کے حوالے سے محتاط لیکن پُر اعتماد امید رکھتا ہے۔ ایک مضبوط اور جدید مینوفیکچرنگ بنیاد، قائم شدہ برآمدی تعلقات، متنوع مصنوعات اور ویلیو ایڈڈ مصنوعات پر مسلسل توجہ کمپنی کو پائیدار اور طویل مدتی ترقی کے لیے مضبوط پوزیشن میں رکھتی ہے۔

کارپوریٹ گورننس اور قانونی امور

کمپنی اعلیٰ معیار کی کارپوریٹ گورننس، مؤثر داخلی کنٹرول، احتساب اور قابل اطلاق قوانین و ضوابط کی مکمل پاسداری کے لیے پرعزم ہے۔ بورڈ آف ڈائریکٹرز اس بات کی تصدیق کرتا ہے کہ کمپنی کے مالیاتی گوشوارے قابل اطلاق اکاؤنٹنگ اور مالیاتی رپورٹنگ کے معیارات کے مطابق تیار کیے گئے ہیں اور کمپنی کی مالیاتی پوزیشن، کاروباری کارکردگی اور کیش فلو کی منصفانہ اور درست عکاسی کرتے ہیں۔

کمپنی نے مناسب اور ضروری اکاؤنٹنگ ریکارڈز اور کتب برقرار رکھے ہیں، اکاؤنٹنگ پالیسیوں کا مستقل بنیادوں پر اطلاق کیا گیا ہے، اور انتظامیہ کی جانب سے دستیاب معلومات اور موجودہ کاروباری حالات کی بنیاد پر کمپنی کے Going Concern کے طور پر اپنا کاروبار جاری رکھنے کی صلاحیت کے حوالے سے کوئی ایسا نمایاں خدشہ موجود نہیں جس کا علیحدہ طور پر اظہار ضروری ہو۔ (Code of Corporate Governance Listed Companies) Regulations کے تحت مطلوبہ تعمیلی بیان، شیئر ہولڈنگ کا پیٹرن، بورڈ اور اس کی کمیٹیوں کے اجلاسوں کی تفصیلات، متعلقہ فریقین کے ساتھ لین دین، اور دیگر قانونی ورگیو لٹری انکشافات سالانہ رپورٹ کے متعلقہ حصوں میں علیحدہ طور پر شامل کیے گئے ہیں۔

اظہار تشکر

بورڈ آف ڈائریکٹرز کمپنی کے قابل قدر صارفین، شیئر ہولڈرز، بینکرز، سپلائرز، کاروباری شراکت داروں اور دیگر تمام اسٹیک ہولڈرز کا ان کے مسلسل اعتماد، تعاون اور وابستگی پر تہ دل سے شکریہ ادا کرتا ہے۔

بورڈ بالخصوص کمپنی کے ملازمین، انتظامیہ اور تمام آپریشنل ٹیموں کی محنت، عزم، پیشہ ورانہ صلاحیت اور مسلسل تعاون کو قدر کی نگاہ سے دیکھتا ہے۔ کمپنی کی موجودہ ترقی اور توسیع کے مرحلے میں ان کی خدمات بنیادی اہمیت رکھتی ہیں۔

بورڈ اس عزم کا اعادہ کرتا ہے کہ کمپنی میں قائم کیے گئے مضبوط آپریشنل اور مینیجنگ پالیسی فارم کو مزید مستحکم کیا جائے گا، کاروباری کارکردگی کو بہتر بنایا جائے گا اور تمام اسٹیک ہولڈرز کے لیے پائیدار، طویل مدتی اور حقیقی قدر (Sustainable Long-Term Value) پیدا کرنے کے لیے بھرپور کوششیں جاری رکھی جائیں گی۔ آخر میں، بورڈ آف ڈائریکٹرز اپنے تمام اسٹیک ہولڈرز کے اعتماد کا اعتراف کرتے ہوئے مستقبل میں بھی ذمہ دارانہ، پائیدار اور منافع بخش ترقی کے لیے پرعزم ہے۔

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

INDEPENDENT AUDITORS' REPORT TO THE MEMBERS

On the Audit of the Financial Statements

Following are the Key audit matters:

Sr. No	Key audit matter	How the matter was addressed in our audit
1.	Revenue recognition	
	The Company is engaged in the manufacturing of terry towels, kitchen towels and terry cloth. The Company primarily generates revenue from exports & local sales. The revenue recognition policy has been explained in note 5.16 and the related amounts of revenue recognised during the year are disclosed in note 28 to the financial statements. - Revenue from the exports and local sales is measured at invoice price net of export rebates and duty drawback and is recognised when control of goods is transferred to the customer. - We consider revenue recognition as a key audit matter due to revenue being one of the key performance indicators, and because of the potential risk that revenue transactions may not have been recognised on a point-in-time basis i.e. When control of goods is transferred to the customer, in line with the accounting policy adopted and may not have been recognised in the appropriate period.	Our audit procedures in relation to the matter, amongst others, included the following: - Evaluated the appropriateness of the Company's revenue recognition accounting policy as per requirements of IFRS-15 and ensure that the revenue is recognised in the appropriate accounting period and based on transfer of control of goods to the customer. - Obtained an understanding of management's internal controls over the revenue process and tested effectiveness of controls relevant to such process. - Check on a sample basis to ensure that the exports and local sales are recorded appropriately at the correct quantity and price when control of goods has been transferred to the customer. - Performed sales cut-off procedures on a sample basis, on specific revenue transactions recorded before and after the reporting date with underlying documentation including evidence of deliveries to assess whether revenue was recognised in the correct period. - Checked that the presentation and appropriateness of disclosures related to revenue are in accordance with requirements of 4th Schedule of Companies Act, 2017 and International Financial Reporting Standards (IFRSs).

INDEPENDENT AUDITORS' REPORT TO THE MEMBERS

Information Other than the Financial Statements and Auditor's Report thereon

Management is responsible for the other information. The Other Information comprises the information included in the Annual Report but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the Other Information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the Other Information and, in doing so, consider whether the Other Information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this Other Information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Board of Directors for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with the accounting and reporting standards as applicable in Pakistan and the requirements of Companies Act, 2017 (XIX of 2017) and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Board of directors are responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs as applicable in Pakistan will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

INDEPENDENT AUDITORS' REPORT TO THE MEMBERS

As part of an audit in accordance with ISAs as applicable in Pakistan, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the board of directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the board of directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

INDEPENDENT AUDITORS' REPORT TO THE MEMBERS

From the matters communicated with the board of directors, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

Based on our audit, we further report that in our opinion:

- a) proper books of account have been kept by the Company as required by the Companies Act, 2017 (XIX of 2017);
- b) the statement of financial position, the statement of profit or loss, the statement of comprehensive income, the statement of changes in equity and the statement of cash flows together with the notes thereon have been drawn up in conformity with the Companies Act, 2017 (XIX of 2017) and are in agreement with the books of account and returns;
- c) investments made, expenditure incurred and guarantees extended during the year were for the purpose of the Company's business; and
- d) no Zakat was deductible at source under the Zakat and Usher Ordinance, 1980 (XVIII 1980).

The engagement partner on the audit resulting in this independent auditor's report is **Muhammad Nawaz**.

2 BASIS OF PREPARATION

2.1 Statement of compliance

- These financial statements have been prepared in accordance with the accounting and reporting standards as applicable in Pakistan. The accounting and reporting standards applicable in Pakistan comprise of:
 - International Financial Reporting Standards (IFRS Standards) issued by the International Accounting Standards Board (IASB) as notified under the Companies Act, 2017; and
 - Provisions of and directives issued under the Companies Act, 2017.
- Where provisions of and directives issued under the Companies Act, 2017 differ from the IFRS Standards, the provisions of and directives issued under the Companies Act, 2017 have been followed.

2.2 Basis of measurement

- These financial statements have been prepared under the historical cost convention except to the extent of the following:

- Employee retirement benefits (Gratuity)	→	Present value
- Certain property plant and equipment	→	Revalued / Fair value
- Certain financial instruments	→	Fair value

2.3 Functional and presentation currency

- These financial statements are prepared and presented in Pak Rupees which is the Company's functional and presentation currency. All the figures have been rounded off to the nearest rupee, unless otherwise stated.

3 USE OF CRITICAL ACCOUNTING ESTIMATES AND JUDGMENTS

- The preparation of financial statements in conformity with IFRS's requires management to make judgments, estimates and assumptions that affect the application of policies and reported amounts of assets, liabilities, incomes and expenses. These estimates and related assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED JUNE 30, 2026

- The estimates and underlying assumptions are reviewed on an ongoing basis. The revisions to accounting estimates are recognized in the period in which estimates are revised if the revision affects only that period, or in the period of revision and future periods if the revision affects both current and future periods.
- Judgments made by the management in the application of IFRSs that have significant effect on the financial statements and estimates with a significant risk of material adjustment in the next year are as under:

3.1 Estimated useful lives, residual values, method of depreciation and revalued amounts of items of property, plant and equipment

- The Company reviews the estimated useful lives, residual values and method of depreciation of property, plant and equipment on regular basis. For land, building, plant & machinery and fittings and electric installations revalued amounts is determined. Revaluation of property, plant and equipment is carried out by independent professional valuers. Revalued amounts of non-depreciable items are determined by reference to local market values and that of depreciable items are determined by reference to present depreciated replacement values. Refer to note 40.3.1 for an analysis of sensitivity of revalued amounts of property, plant and equipment. Further where applicable, an estimate of recoverable amount of assets is made for possible impairment on an annual basis. Any change in such estimates in future years might affect the carrying amounts of the respective items of property, plant and equipment with corresponding effect on the depreciation charge and impairment.

3.2 Revenue from contracts with customers involving sale of goods

- When recognizing revenue in relation to the sale of goods to customers, the key performance obligation of the Company is considered to be the point of delivery of the goods to the customer, as this is deemed to be the time that the customer obtains control of the promised goods and therefore, the benefits of unimpeded access.

3.3 Impairment

3.3.1 Impairment of financial assets

- The allowance for expected credit losses assessment requires a degree of estimation and judgment. The Company measures allowances for Expected Credit Losses (ECLs) for trade debts using IFRS 9 'Financial Instruments' simplified approach based on the lifetime expected credit loss, grouped based on days overdue, and makes assumptions to allocate an overall expected credit loss rate for each group. These assumptions include recent sales experience and historical collection rates after considering the pattern of receipts from and future financial outlook of the counterparty and are reviewed by the management on regular basis.
- While general 3-stage approach for all other financial assets including deposits, advances, other receivables and bank balances i.e. to measure ECL through loss allowance at an amount equal to 12-month ECL if credit risk on a financial instrument or a group of financial instruments has not increased significantly since initial recognition. Any change in the estimates in future years might affect the carrying amounts of the respective items of assets with a corresponding effect on income.

3.3.2 Impairment of non-financial assets

- The carrying amounts of the Company's assets are reviewed at each reporting date to determine whether there is any indication of impairment loss. If any such indication exists, recoverable amount is estimated using criteria given in respective accounting standards to determine the extent of impairment loss, if any.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED JUNE 30, 2026

3.4 Employees' retirement benefits - gratuity

- The Company records its employees' retirement benefits at present value using actuarial assumptions regarding increase in salaries in subsequent years, remaining working lives of employees and an estimate of discount rates. Change in actuarial assumptions over the period of time may affect the present value of post-employment benefits payable and the charge for such liability accounted for in any given period.

3.5 Provision for stores, spares & loose tools and stock in trade

- The Company records its stores, spares & loose tools and stock in trade using lower of cost and net realizable value. Net realizable value is determined with reference to estimated selling price less estimated cost to complete and estimated cost necessary to make the sales. Valuation of the stores and spares and stock in trade is reviewed at regular intervals for determination of possible impairment, if any. Any possible impairment may change the future value of stores, spares & and stock in trade.
- Provision for obsolete and slow-moving inventories is based on management's estimate of the condition and usability of stores, spares & loose tools and stock in trade.

3.6 Taxation

- Significant judgment is required in determining the provision for income taxes. There are few transactions and calculations for which ultimate tax determination is uncertain as these matters are being contested at various legal forums. The Company recognizes liabilities for anticipated tax issues based on estimates of whether additional taxes will be due. Instance where the management of the Company's view differs from the view taken by the taxation authorities at the assessment stage and where the management considers that its view on items of material nature is in accordance with law, the amounts are shown as contingency. Where the final tax outcome of these matters is different from the amounts that were initially recorded, such differences will impact the current tax expense, assets and liabilities in the period in which such determination is made.

3.7 Provisions and contingencies

- A provision is recognized as a result of past event when the Company has a present legal or constructive obligation that can be estimated reliably and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows at pre-tax rate that reflects the current market assessments of the time value of money and the risk specific to the liability. The un-winding of discount is recognized as finance cost, if any.
- Where it is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation or the amount of the obligation can not be measured with sufficient reliability, it is disclosed as contingent liability.

3.8 Financial instruments – fair value

- When the fair value of financial assets and financial liabilities recorded in the statement of financial position cannot be derived from active markets, their fair value is determined using valuation techniques including the discounted cash flow model. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgment is required in establishing fair values. The judgments include considerations of inputs such as liquidity risk, credit risk and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED JUNE 30, 2026

4.1 Standards, interpretations and amendments to published approved accounting standards that became effective during the year

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED JUNE 30, 2026

IFRS 1 – First Time Adoption of International Financial Reporting Standards	July 1, 2009
IFRS 19 - Subsidiaries without Public Accountability: Disclosures	January 1, 2027

The Company expects that above standards, amendments and improvements to approved accounting standards will not have any material impact on the Company's financial statements in the period of initial application.

5 MATERIAL ACCOUNTING POLICY INFORMATION

- The accounting policies set out below have been applied consistently to all periods presented in these financial statements except for the changes of adoption of new accounting standards as indicated in Note 4.1 and the changes as indicated below:

5.1 Provisions

- Provisions for legal claims, service warranties and good obligations are recognized when the Company has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation and the amount can be reliably estimated. Provisions are not recognized for future operating losses.
- Where there are a number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole. A provision is recognized even if the likelihood of an outflow with respect to any one item included in the same class of obligations may be small.
- Provisions are measured at the present value of management's best estimate of the expenditure required to settle the present obligation at the end of the reporting period. The discount rate used to determine the present value is a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The increase in the provision due to the passage of time is recognized as interest expense.
- As the actual outflows can differ from estimates made for provisions due to changes in laws, regulations, public expectations, technology, prices and conditions, and can take place many years in the future, the carrying amounts of provisions are reviewed at each reporting date and adjusted to take account of such changes. Any adjustments to the amount of previously recognized provision is recognized in the statement of profit or loss unless the provision was originally recognized as part of cost of an asset.

5.2 Staff retirement benefits

5.2.1 Defined benefit plan

- The Company operates an unfunded gratuity scheme covering all its permanent employees. Employees are eligible for benefits under this scheme after completion of Twelve months of continuous service. The benefit is calculated on the basis of number of completed years of service and last drawn gross salary.
- As at reporting date the Company records staff retirement benefits liability based on actuarial valuation, which is carried out using the projected unit credit method. All actuarial gains and losses (i.e. remeasurements) are recognized in "other comprehensive income" as they occur.

5.3 Taxation and levies

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED JUNE 30, 2026

5.3.1 Levy

In accordance with the Income Tax Ordinance, 2001, computation of final taxes is not based on taxable income. Therefore, as per IAS 12 Application Guidance on Accounting for Minimum Taxes and Final Taxes issued by the ICAP, these fall within the scope of IFRIC 21 / IAS 37 and accordingly Company has adopted 'approach a' and classified these as levy in financial statements.

5.3.2 Current

- The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the end of the reporting period (i.e. taxable income at the current tax rate after taking into account applicable tax credits, rebates and exemptions available, if any, or minimum taxation at the rate of 1.25 percentage of the turnover, or alternate corporate tax at the rates applicable for the time being, whichever is higher, however, for income covered under final tax regime, taxation is based on applicable tax rates under such regime).
- Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. It establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities.
- Current tax is recognized in profit or loss, except to the extent that it relates to items recognized in other comprehensive income or directly in equity. In this case, the tax is also recognized in other comprehensive income or directly in equity, respectively.
- Current tax assets and tax liabilities are offset, where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously.

5.3.2 Deferred

- The treatment of deferred taxation is determined in accordance with the IAS 12 Application Guidance on Accounting for Minimum Taxes and Final Taxes issued by the Institute of Chartered Accountants of Pakistan (ICAP). Under this guidance, deferred tax is measured using the effective tax rate applicable to the entity. Where no current tax expense is chargeable, the effective tax rate is considered to be nil. Accordingly, no deferred tax asset or liability has been recognized in these financial statements.

5.3.3 Sales Tax

- Revenues, expenses, assets and liabilities are recognized net of the amount of sales tax except:
 - (a) Where the sales tax incurred on purchase of assets or services is not recoverable from the taxation authority, the sales tax is recognized as part of the cost of acquisition of the asset or as part of expense, as applicable.
 - (b) When receivables and payable are stated with the amount of sales tax included.
- The net amount of sales tax recoverable from, or payable to, the taxation authority is included as part of receivables or payables in the statement of financial position. Sales tax assets and liabilities are offset when balances relate to the same taxation authority.

5.4 Trade and other payables

- Trade creditors and other payables represent liabilities for goods and services provided to the Company prior to the end of financial year which are unpaid. These are recognized initially at their fair value which is consideration to be paid in future for goods and services received, whether or not billed to the Company and subsequently measured at amortized cost using the effective interest method. These are presented as current liabilities unless payment is not due within 12 months after the reporting period.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED JUNE 30, 2026

- Exchange gains and losses arising on translation in respect of liabilities in foreign currency are added to the carrying amount of the respective liabilities.

5.5 Property, plant and equipment

5.5.1 Owned assets

- Property, plant and equipment are stated at revalued amount/cost less accumulated depreciation and identified impairment losses, if any, except freehold land which is stated at revalued amount. Revaluation is carried out with sufficient regularity to ensure that the carrying amounts of assets do not differ materially from their fair values. Additions, subsequent to revaluation, are stated at cost less accumulated depreciation and any identified impairment loss.
- The cost of an item of property, plant and equipment comprises its purchase price and any directly attributable costs of bringing the asset to its working condition and location for its intended use. Cost in relation to certain assets also includes cost of borrowing during construction period in respect of loans taken for specific asset/projects.
- The management reviews the market value of revalued assets at each date of statement of financial position to ascertain whether the fair value of revalued assets have differed materially from the carrying value of such assets, thus necessitating further revaluation.
- Depreciation on property, plant and equipment, except freehold land, is charged to statement of profit or loss using reducing balance method so as to write off the cost or revalued amount of an asset over its estimated useful life. Incremental depreciation representing the difference between actual depreciation based on revalued carrying amount of the asset and equivalent depreciation based on the original carrying amount of the asset is transferred to equity from surplus on revaluation of property, plant and equipment.
- Depreciation on additions is charged from the day on which the assets are available for use while no depreciation will be charged from the day on which the assets are disposed off. Rates of depreciation are disclosed in note 19.1.
- Depreciation method, residual value and useful lives of assets are reviewed at least at each financial year end and adjusted if impact on depreciation is significant.
- Maintenance and normal repairs are charged to profit or loss as and when incurred. Major renewals and replacements are capitalized. Gains or losses on disposal of property, plant and equipment are included in the current year's profit or loss.
- Increases in the carrying amounts arising due to revaluation are credited to revaluation surplus on property, plant and equipment. Decreases that offset previous increases of any other fixed asset of the Company are debited against revaluation surplus directly in equity. All other decreases are charged to the statement of profit or loss.

5.5.2 Capital work-in-progress

- Capital work-in-progress is stated at cost less any identified impairment loss.

5.5.3 Advance against capital assets

Advance against capital assets is stated at cost less impairment loss, if any. Transfers are made to relevant asset category as and when assets are available for intended use.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED JUNE 30, 2026

5.6 Impairment of non-financial assets

- The Company assesses the carrying amount of non financial assets at each reporting date to determine whether there is any indication of impairment loss. If such indication exists, the recoverable amount of such asset is estimated. An impairment loss is recognized wherever the carrying amount of the asset exceeds its recoverable amount. Impairment losses are recognized in the statement of profit or loss. A previously recognized impairment loss is reversed only if there has been a change in the estimates used to determine the asset's recoverable amount since the last impairment loss was recognized. If that is the case, the carrying amount of the asset is increased to its recoverable amount. That increased amount cannot exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognized for the asset in prior years. Such reversal is recognized in the statement of profit or loss. Where an impairment loss is recognized, the depreciation charge is adjusted in future periods to allocate the asset's revised carrying amount over its estimated useful life.

5.7 Investments

5.7.1 In associated undertakings

- Investments in associates are accounted for using the equity method. This method is applied from the date when significant influence is established until the date when that significant influence ceases.

5.7.2 Other investments

- The Company classifies all other investments into following three categories as financial asset:
 - fair value through profit or loss (FVTPL); and
 - fair value through other comprehensive income (FVOCI);
 - measured at amortized cost.
- See financial assets recognition, measurement and derecognition criteria as described in policy of financial assets (Ref: note 5.12).

5.8 Stores, spares and loose tools

- Stores, spares and loose tools are valued at weighted average cost, while items considered obsolete are carried at nil value. Items in transit are valued at cost comprising invoice value plus other charges paid thereon. Provision is made for obsolete and slow moving stores items based on management estimate.

5.9 Stock in trade

- These are valued at lower of cost and net realizable value and the cost is determined by using the following basis:

- Raw materials	→	At weighted average cost
- Work in process	→	At estimated average manufacturing cost
- Finished goods	→	Average manufacturing cost
- Manufacturing cost in relation to work-in-process and finished goods comprises cost of materials, labor and appropriate manufacturing overheads.
 - an unbiased and probability-weighted amount that is determined by evaluating a range of possible outcomes;
 - reasonable and supportable information that is available at the reporting date about past events, current conditions and forecasts of future economic conditions.
- Trade debts are separately assessed for ECL measurement. The lifetime expected credit losses are estimated using the Company's historical credit loss experience, adjusted for factors that are specific to the debtors, general economic conditions and an assessment of both the current as well as the forecast direction of conditions at the reporting date, including time value of money where appropriate.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED JUNE 30, 2026

- Net realizable value signifies the estimated selling price in the ordinary course of business less costs necessary to be incurred in order to make a sale. If the net realizable value is lower than the carrying amount, a write-down is recognized for the amount by which the carrying amount exceeds its net realizable value. Provision is made in the financial statements for obsolete and slow moving stock in trade based on management estimate.

5.10 Trade debts

- Trade debts are amounts due from customers for goods sold in the ordinary course of business. Trade debts are recognized initially at the original invoice amount being the fair value, unless they contain significant financing component in which case such are recognized at fair value. The Company holds the trade debt with the objective of collecting the contractual cash flows and therefore measures the trade debts subsequently at amortized cost using the effective interest rate method as per IFRS 9.
- The Company recognizes life time ECL on trade debts, using the simplified approach. The measurement of ECL reflects:
 - an unbiased and probability-weighted amount that is determined by evaluating a range of possible outcomes;
 - reasonable and supportable information that is available at the reporting date about past events, current conditions and forecasts of future economic conditions.
- Trade debts are separately assessed for ECL measurement. The lifetime expected credit losses are estimated using the Company's historical credit loss experience, adjusted for factors that are specific to the debtors, general economic conditions and an assessment of both the current as well as the forecast direction of conditions at the reporting date, including time value of money where appropriate.

5.10.1 Recognition of loss allowance

- The Company recognizes a loss allowance in the statement of profit or loss for trade debts with a corresponding adjustment to their carrying amount through a loss allowance account. Regardless of the analysis above, a significant increase in credit risk is presumed if a debtor is more than 360 days past due in making a contractual payment.

5.10.2 Write-off

- The Company write off financial assets, in whole or in part, when it has exhausted all practical recovery efforts and has concluded there is no reasonable expectation of recovery. The assessment of no reasonable expectation of recovery is based on unavailability of debtor's sources of income or assets to generate sufficient future cash flows to repay the amount.

5.11 Cash and cash equivalents

- Cash and cash equivalents are carried at amortized cost. Cash and cash equivalents in the statement of financial position comprise cash at banks, cash in hand and short-term highly liquid deposits with a maturity of three months or less, that are readily convertible to a known amount of cash and subject to an insignificant risk of changes in value.
- For the purpose of the statement of cash flows, cash and cash equivalents consist of cash and short-term bank deposits, as defined above, net of outstanding bank overdrafts as they are considered an integral part of the Company's cash management.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED JUNE 30, 2026

5.12 Financial instruments

- A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

(A) Financial assets

(a) Initial recognition and measurement

- Financial assets are classified, at initial recognition, as subsequently measured at amortized cost, fair value through other comprehensive income (OCI), and fair value through profit or loss.
- The classification of financial assets at initial recognition depends on the financial asset's contractual cash flow characteristics and the Company's business model for managing them. With the exception of trade receivables that do not contain a significant financing component or for which the Company has applied the practical expedient, the Company initially measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs. Trade receivables that do not contain a significant financing component or for which the Company has applied the practical expedient are measured at the transaction price determined under IFRS 15.
- In order for a financial asset to be classified and measured at amortized cost or fair value through OCI, it needs to give rise to cash flows that are "solely payments of principal and interest (SPPI)" on the principal amount outstanding. This assessment is referred to as the SPPI test and is performed at an instrument level.
- The Company's business model for managing financial assets refers to how it manages its financial assets in order to generate cash flows. The business model determines whether cash flows will result from collecting contractual cash flows, selling the financial assets, or both.
- Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the market place (regular way trades) are recognized on the trade date, i.e., the date that the Company commits to purchase or sell the asset.

(b) Subsequent measurement

- For purposes of subsequent measurement, financial assets are classified in following categories:
 - (i) Financial assets at amortized cost (debt instruments)
 - (ii) Financial assets at fair value through OCI with recycling of cumulative gains and losses (debt instruments)
 - (iii) Financial assets designated at fair value through OCI with no recycling of cumulative gains and losses upon derecognition (equity instruments)
 - (iv) Financial assets at fair value through profit or loss

(i) Financial assets at amortized cost (debt instruments)

- This category is the most relevant to the Company. The Company measures financial assets at amortized cost if both of the following conditions are met:
 - The financial asset is held within a business model with the objective to hold financial assets in order to collect contractual cash flows; and
 - The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.
- Financial assets at amortized cost are subsequently measured using the effective interest rate (EIR) method and are subject to impairment. Gains and losses are recognized in statement of profit or loss when the asset is derecognized, modified or impaired.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED JUNE 30, 2026

- The Company's financial assets at amortized cost includes:
 - Long term investments
 - Long term deposits
 - Trade debts
 - Advances, deposits, prepayments and other receivables
 - Due from related parties
 - Cash and bank balances

(ii) Financial assets at fair value through OCI (debt instruments)

- The Company measures debt instruments at fair value through OCI if both of the following conditions are met:
 - (i) The financial asset is held within a business model with the objective of both holding to collect contractual cash flows and selling; and
 - (ii) The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.
- For debt instruments at fair value through OCI, interest income, foreign exchange revaluation and impairment losses or reversals are recognized in the statement of profit or loss and computed in the same manner as for financial assets measured at amortized cost. The remaining fair value changes are recognized in OCI. Upon derecognition, the cumulative fair value change recognized in OCI is recycled to profit or loss.

(iii) Financial assets designated at fair value through OCI (equity instruments)

- Upon initial recognition, the Company can elect to classify irrevocably its equity investments as equity instruments designated at fair value through OCI when they meet the definition of equity under "(IAS 32 Financial Instruments: Presentation)" and are not held for trading. The classification is determined on an instrument-by-instrument basis.
- Gains and losses on these financial assets are never recycled to profit or loss. Dividends are recognized as other income in the statement of profit or loss when the right of payment has been established, except when the Company benefits from such proceeds as a recovery of part of the cost of the financial asset, in which case, such gains are recorded in OCI. Equity instruments designated at fair value through OCI are not subject to impairment assessment.

(iv) Financial assets at fair value through profit or loss

- Financial assets at fair value through profit or loss are carried in the statement of financial position at fair value with net changes in fair value recognized in the statement of profit or loss.
- This category includes derivative instruments and listed equity investments which the Company had not irrevocably elected to classify at fair value through OCI. Dividends on listed equity investments are also recognized as other income in the statement of profit or loss when the right of payment has been established.
- A derivative embedded in a hybrid contract, with a financial liability or non-financial host, is separated from the host and accounted for as a separate derivative if: the economic characteristics and risks are not closely related to the host; a separate instrument with the same terms as the embedded derivative would meet the definition of a derivative; and the hybrid contract is not measured at fair value through profit or loss. Embedded derivatives are measured at fair value with changes in fair value recognized in profit or loss. Reassessment only

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED JUNE 30, 2026

occurs if there is either a change in the terms of the contract that significantly modifies the cash flows that would otherwise be required or a reclassification of a financial asset out of the fair value through profit or loss category.

(b) Derecognition

- A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognized when:
 - (i) The rights to receive cash flows from the asset have expired.
 - (ii) The Company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement **and either (a) the Company has transferred substantially all the risks and rewards of the asset, or (b) the Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.**
- When the Company has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if, and to what extent, it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the Company continues to recognize the transferred asset to the extent of its continuing involvement. In that case, the Company also recognizes an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Company has retained.
- Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Company could be required to repay.

(c) Impairment of financial assets

- The Company recognizes an allowance for expected credit losses (ECLs) for all debt instruments not held at fair value through profit or loss. ECLs are based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Company expects to receive, discounted at an approximation of the original effective interest rate. The expected cash flows will include cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.
- ECLs are recognized in two stages. For credit exposures for which there has not been a significant increase in credit risk since initial recognition, ECLs are provided for credit losses that result from default events that are possible within the next 12-months (a 12-month ECL). For those credit exposures for which there has been a significant increase in credit risk since initial recognition, a loss allowance is required for credit losses expected over the remaining life of the exposure, irrespective of the timing of the default (a lifetime ECL).
- For trade receivables and contract assets, the Company applies a simplified approach in calculating ECLs. Therefore, the Company does not track changes in credit risk, but instead recognizes a loss allowance based on lifetime ECLs at each reporting date. The Company has established a provision matrix that is based on its historical credit loss experience, adjusted for forward-looking factors specific to the debtors and the economic environment.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED JUNE 30, 2026

- For debt instruments at amortized cost (other than trade receivables and contract assets) and fair value through OCI, the Company applies the low credit risk simplification. At every reporting date, the Company evaluates whether the debt instrument is considered to have low credit risk using all reasonable and supportable information that is available without undue cost or effort. In making that evaluation, the Company reassesses the internal credit rating of the debt instrument. In addition, the Company considers that there has been a significant increase in credit risk when contractual payments are more than 30 days past due.
- The Company's debt instruments at fair value through OCI that are considered to be low credit risk investments, it is the Company's policy to measure ECLs on such instruments on a 12-month basis. However, when there has been a significant increase in credit risk since origination, the allowance will be based on the lifetime ECL. The Company uses the ratings from the Good Credit Rating Agency both to determine whether the debt instrument has significantly increased in credit risk and to estimate ECLs.
- The Company considers a financial asset in default when contractual payments are 120 days past due. However, in certain cases, the Company may also consider a financial asset to be in default when internal or external information indicates that the Company is unlikely to receive the outstanding contractual amounts in full before taking into account any credit enhancements held by the Company. A financial asset is written off when there is no reasonable expectation of recovering the contractual cash flows.

(B) Financial liabilities

(a) Initial recognition and measurement

- Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss, and financial liabilities at amortized cost, as appropriate.
- All financial liabilities are recognized initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.
- The Company's financial liabilities include:
 - Long term borrowings
 - Trade and other payables
 - Accrued mark up
 - Short term borrowings
 - Due to related parties

(b) Subsequent measurement

- The measurement of financial liabilities depends on their classification, as described below:

(i) Financial liabilities at fair value through profit or loss

- Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss.
- Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. Separated embedded derivatives are also classified as held for trading unless they are designated as effective hedging instruments.
- Gains or losses on liabilities held for trading are recognized in the statement of profit or loss.
- Financial liabilities designated upon initial recognition at fair value through profit or loss are designated at the initial date of recognition, and only if the criteria in IFRS 9 are satisfied. The Company has not designated any financial liability as at fair value through profit or loss.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED JUNE 30, 2026

(ii) Financial liabilities at amortized cost (loans and borrowings)

- This is the category most relevant to the Company. After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortized cost using the effective interest rate (EIR) method. Gains and losses are recognized in profit or loss when the liabilities are derecognized as well as through the EIR amortization process.
- Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included as finance costs in the statement of profit or loss.
- This category generally applies to interest-bearing loans and borrowings.

(c) Derecognition

- A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognized in the statement of profit or loss.

(C) Derivative financial instruments

- Derivatives are initially recognized at fair value. Any directly attributable transaction costs are recognized in the statement of profit or loss as incurred. They are subsequently remeasured at fair value on regular basis and at each reporting date as a minimum, with all their gains and losses, realized and unrealized, recognized in the statement of profit or loss.

(D) Fair value measurement

- Financial assets and financial liabilities are offset and the net amount is reported in the statement of financial position if there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, to realize the assets and settle the liabilities simultaneously.

5.13 Fair value measurement

- Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction in the principal (or most advantageous) market at the measurement date under current market conditions (i.e. an exit price) regardless of whether that price is directly observable or estimated using another valuation technique.
- The different levels of fair valuation method have been defined as follows:
 - Level 1** Quoted prices in active markets for identical assets or liabilities;
 - Level 2** Inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (as prices) or indirectly (derived from prices); and
 - Level 3** Inputs for the asset or liability that are not based on observable market data.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED JUNE 30, 2026

5.14 Foreign currency transactions and translations

- Transactions in foreign currencies are converted into Pakistani Rupees at the rates of exchange prevailing on the date of the transactions.
- Monetary assets and liabilities in foreign currencies are translated into Rupees at rates prevailing at the reporting date.
- Foreign currency gains and losses resulting from the settlement of such transactions and from the translation of monetary assets and liabilities denominated in foreign currencies at year end exchange rates are generally recognized in profit or loss.
- Foreign exchange differences arising from trading transactions are included in the results of operating activities whereas exchange differences on financing activities are included in finance costs.
- All other foreign exchange gains and losses are presented in the statement of profit or loss on a net basis within other income or other expenses.
- Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates as at the dates of the initial recognition of transactions.
- Non-monetary items that are measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined. Translation differences on assets and liabilities carried at fair value are reported as part of the fair value gain or loss. For example, translation differences on non-monetary assets and liabilities such as investments held at fair value through profit or loss are recognized in profit or loss as part of the fair value gain or loss and translation differences on non-monetary assets such as investments measured at fair value through OCI are recognized in other comprehensive income.
- In determining the spot exchange rate to use on initial recognition of the related asset, expense or income (or part of it) on the derecognition of a non-monetary asset or non-monetary liability relating to advance consideration, the date of the transaction is the date on which the Company initially recognizes the non-monetary asset or non-monetary liability arising from the advance consideration. If there are multiple payments or receipts in advance, the Company determines the transaction date for each payment or receipt of advance consideration.
- The exchange rates of the major currencies that impact the operations are:

Exchange rates used for conversions in Pakistani Rupees (PKR)				
Currency	Closing rate as of		Average rate for the year ended June 30,	
	June 30,			
	2026	2025	2026	2025
United States-USD	278.16	283.60	280.80	279.98
European-EURO	316.92	332.25	326.24	305.38

5.15 Related party transactions

- Transactions with related parties are carried out by the Company at arms' length prices, whereas transactions lacking commercial substance are conducted at mutually agreed prices in accordance with policy approved by Board of Directors, where majority of the directors are interested in any transaction with approval of Members as prescribed under section 208 of Companies Act, 2017.

5.16 Revenue recognition

5.16.1 From sale of goods to customer

- Revenue is recognized in statement of profit or loss in accordance with the pattern of satisfying the Company's performance obligations under a contract. This satisfaction occurs when control

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED JUNE 30, 2026

of a good or service transfers to the customer. Revenue is measured at the fair value of the consideration received or receivable, and is recognized on the following basis:

- Revenue from sale of goods and scrap sales is recognized when control of goods have been transferred to a customer at a point in time when the performance obligation is met (generally at the time of delivery). Generally, the normal credit term is 30 to 60 days upon delivery.

5.16.2 Others income

- Return on long-term deposits, due from related parties and return on bank deposits at amortized cost are accounted for using the effective interest rate method.
- Dividends on equity investments are recognized as income when the Company's right to receive the dividends is established.
- Revenue from processing income is recognized when processing services are rendered.
- Duty draw back and export rebates are recognized as income when bill of lading of related export sales are received.
- Income from lease rentals is recognized on straight line basis over the term of the respective lease agreement.

5.17 Segment reporting

- Operating segments are reported in a manner consistent with the internal reporting provided to the Chief Operating Decision Maker. Segment results, assets and liabilities include items directly attributable to a segment. Segment capital expenditure is the total cost incurred during the year to acquire property, plant and equipment.

5.18 Earnings per share (EPS)

- The Company presents basic and diluted earnings per share (EPS) data for its ordinary shares.
- Basic earnings per share is calculated by dividing the profit and loss attributable to ordinary shareholders of the Company by the weighted average number of ordinary shares outstanding during the period.

- These risks affect revenues, expenses and assets and liabilities of the Company.
- The Board of Directors has overall responsibility for the establishment and oversight of the Company's risk management framework. The Board is responsible for developing and monitoring the Company's risk management policies.
- The Board of Directors has the overall responsibility for establishment and oversight of risk management framework. The Board of Directors has developed a risk policy that sets out fundamentals of risk management framework. The management team of the Company is responsible for administering and monitoring the financial and operational financial risk management throughout the Company in accordance with the risk management framework.
- The Company's exposure to financial risks, the way these risks affect the financial position and performance, and forecast transactions of the Company and the manner in which such risks are managed is as follows:

39.1.1 Market risk

(i) Currency risk

- Currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. Currency risk arises mainly from future commercial transactions or receivables and advances from customer that exist due to transactions in foreign currencies.
- The Company is exposed to currency risk arising from various currency exposures, primarily with respect to the United States Dollar (USD) and European Union Euro (EURO). Currently, the Company's foreign exchange risk exposure is restricted to the amounts receivable from foreign trade debtors and advances from foreign customers. The Company manages its currency risk by close monitoring of currency markets. However, the Company does not hedge its currency risk exposure. The Company's exposure to currency risk is as follows:

- Exposure in USD

	2026	2025	2026	2025
United States Dollar (USD)	278.16	283.60	280.80	279.98
European Union Euro (EURO)	316.92	332.25	326.24	305.38

- **Currency rate sensitivity analysis**

At reporting date, one percent depreciation/appreciation in Pak Rupee would have had an equal but opposite effect on profit for the year and equity. The analysis assumes that all other variables, in particular interest rates, remain constant and ignores the impact, if any, on provision for taxation for the year. There were no changes in the methods and assumptions used in preparing the sensitivity analysis, the impact on profit before taxation for the year ended June 30, 2026 would have been as follows:

Effect on Profit or (loss) (+ , -)	% Change (+ , -)	2026	2025
United States Dollar (USD)	1%	316,824	645,841
European Union Euro (EURO)	1%	766,846	460,496
Currency rate sensitivity		1,083,670	1,106,337

(ii) **Other price risk**

- Other price risk represents the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices (other than those arising from interest rate risk or currency risk), whether those changes are caused by factors specific to the individual financial instrument or its issuer, or factors affecting all similar financial instrument traded in the market. The Company is exposed to price risk in respect of its investments in equity securities classified at fair value through OCI. However, the risk is minimal as these investments are held for strategic purposes rather than trading purposes. The Company does not actively trade in these investments. The Company is not exposed to commodity price risk. The Company's exposure to other price risk is as follows:

Financial Instruments	2026	2025

Premier Garments Limited	-	-
Tee Jay Corporation (Private) Limited	-	-

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED JUNE 30, 2026

Sensitivity analysis

- The investment of the Company classified at fair value through OCI would normally be affected due to fluctuation of equity prices in the stock exchange. In case of 10% (2025: 10%) increase / decrease in KSE 100 index on June 30, 2026, the net gain/(loss) for the year relating to securities classified at fair value through OCI and other components of equity and net assets of the Company would increase / decrease by Rs. 1.25 million (2025: Rs. 1.65 million) as a result of gains / losses on equity securities classified at fair value through OCI.
- The above analysis is based on the assumption that the equity index had increased / decreased by 10% (2025: 10%) with all other variables held constant and all the Company's equity instruments moved according to the historical correlation with the index. This represents management's best estimate of a reasonable possible shift in the KSE 100 index, having regard to the historical volatility of the index. The composition of the Company's investment portfolio and the correlation thereof to the KSE index, is expected to change over time. Accordingly, the sensitivity analysis prepared as at June 30, 2026 is not necessarily indicative of the effect on the Company's net assets of future movements in the level of KSE100.

(iii) Interest rate risk

- Interest rate risk is the risk that fair values or future cash flows of a financial instrument will fluctuate because of changes in interest rates.

(a) Interest rate risk management

The Company manages interest rate risk by analysing its interest rate exposure on a dynamic basis. Cash flow interest rate risk is managed by simulating various scenarios taking into consideration refinancing, renewal of existing positions and alternative financing. Based on these scenarios, the Company calculates impact on profit after taxation and equity of defined interest rate shift, mostly 100 basis points. There were no changes in Company's approach to interest rate risk management during the year.

(b) Interest/markup/profit bearing financial instruments

The effective interest/markup/profit rates for interest/markup/profit bearing financial instruments are mentioned in relevant notes to the financial statements. The Company's interest/markup/profit bearing financial instruments as at the reporting date are as follows:

(c) Fair value sensitivity analysis for fixed rate instruments

- The company does not account for any fixed rate financial assets and liabilities at fair value through profit or loss. Therefore, a change in interest rate at the reporting date would not affect profit or loss of the Company.

(d) Cash flow sensitivity analysis for variable rate instruments

- If interest rates at reporting date, fluctuate by 1% (i.e. 100 basis points) higher / lower, profit for the year and equity would have been Rs. 2.64 million (2025: Rs. 1.92 million) lower/higher, mainly as a result of higher / lower interest expense on borrowings. This analysis is prepared assuming the amounts of liabilities outstanding at the date of statement of financial position were indicative of balances outstanding during the year and other variables, in particular foreign exchange rates, remain constant and ignores the impact, if any, on provision for taxation for the year. There were no changes in the methods and assumptions used in preparing the sensitivity analysis.
- The sensitivity analysis prepared as of June 30, 2026 is not necessarily indicative of the impact on Company's net assets of future movements in interest rates.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED JUNE 30, 2026

39.1.2 Credit risk

- Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from Long term investments, long-term deposits, trade debts, certain advances, deposits and other receivables, due from related parties and balances with banks.

(a) Credit risk management practices

- In order to minimise credit risk, the Company has adopted a policy of only dealing with creditworthy counterparties and limiting significant exposure to any single counterparty. The Company only transacts with counterparties that have reasonably high external credit ratings. Where an external rating is not available, the Company uses an internal credit risk grading mechanism. Particularly for customers, a dedicated team responsible for the determination of credit limits uses a credit scoring system to assess the potential as well as existing customers' credit quality and assigns or updates credit limits accordingly. The ageing profile of trade receivables and individually significant balances, along with collection activities are reviewed on a regular basis. High risk customers are identified and restrictions are placed on future trading, including suspending future shipments and administering dispatches on a prepayment basis.
- The Company reviews the recoverable amount of each financial asset on an individual basis at each reporting date to ensure that adequate loss allowance is made in accordance with the assessment of credit risk for each financial asset.
- The Company considers a financial asset to have low credit risk when the asset has reasonably high external credit rating or if an external rating is not available, the asset has an internal rating of "performing". Performing means that the counterparty has no past due amounts or otherwise there is no significant increase in credit risk if the amounts are past due in the normal course of business based on history with the counterparty.
- In assessing whether the credit risk on a financial asset has increased significantly since initial recognition, the Company compares the risk of a default occurring on the financial asset at the reporting date with the risk of a default occurring on the financial asset at the date of initial recognition. In making this assessment, the Company considers both quantitative and qualitative information that is reasonable and supportable, including historical experience and forward-looking information that is available without undue cost or effort. Irrespective of the outcome of the above assessment, the Company presumes that the credit risk on a financial asset has increased significantly since initial recognition when contractual payments are more than 30 days past due, unless the Company has reasonable and supportable information that demonstrates otherwise.
- This is usually the case with various customers of the Company where the Company has long standing business relationship with these customers and any amounts that are past due by more than 30 days in the normal course of business are considered 'performing' based on history with the customers. Therefore despite the foregoing, the Company considers some past due trade receivables to have low credit risk where the counterparty has a good history of meeting its contractual cash flow obligations and is expected to maintain the same in future.
- The Company regularly monitors the effectiveness of the criteria used to identify whether there has been a significant increase in credit risk and revises them as appropriate to ensure that the criteria are capable of identifying significant increase in credit risk.
- The Company considers 'default' to have occurred when the financial asset is credit-impaired. A financial asset is considered to be credit-impaired when one or more events that have a detrimental impact on the estimated future cash flows of that financial asset have occurred.
- The Company writes off a financial asset when there is information indicating that the counterparty is in severe financial condition and there is no realistic prospect of recovery.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED JUNE 30, 2026

- (b) The Company's credit risk grading framework comprises the following categories and basis for recognizing impairment allowance for Expected Credit Losses (ECL) for each category:

Category	Description	Basis for recognizing ECL
Performing	The counterparty has low credit risk	Trade debts: Lifetime ECL Other assets: 12-month ECL
Doubtful	Credit risk has increased significantly since initial recognition	Lifetime ECL
In default	There is evidence indicating the assets is credit-impaired	Lifetime ECL
Write-off	There is no realistic prospect of recovery	Amount is written-off

There were no changes in the Company's approach to credit risk management during the year.

(c) **Exposure to credit risk**

- Credit risk principally arises from debt instruments held by the Company as at the reporting date. The maximum exposure to credit risk as at the reporting date is as follows:

Financial assets at amortized cost	2026	2025
	-----Rupees-----	
Long term deposits	6,569,548	6,569,548
Trade debts	115,818,093	112,525,059
Deposits and other receivables	20,596,716	11,690,056
Due from related parties	-	-
Bank balances	371,934	2,501,762
	143,356,291	133,286,425

(d) **Credit quality and impairment**

- Credit quality of financial assets is assessed by reference to external credit ratings, where available, or to internal credit risk grading. The credit quality of the Company's financial assets exposed to credit risk is as follows:

Financial assets at amortized cost	External credit rating	Internal credit risk grading	12-month or life-time ECL	Gross carrying amount	Loss allowance
Long term deposits	N/A	Performing	12-month ECL	6,569,548	-

Due from related parties	N/A	Performing	12-month ECL	-	-
Bank balances	Note 39.1.2 (d) (iv)	N/A	12-month ECL	-	-

(i) **Long term deposits**

- These include deposits placed with Government owned utility companies against utilities connections and do not carry any significant credit risk. Accordingly no loss allowance has been made.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED JUNE 30, 2026

(ii) Trade debtors

- For trade receivables, the Company has applied the simplified approach in IFRS 9 to measure the loss allowance at lifetime ECL. The Company determines the expected credit losses on trade receivables by using internal credit risk gradings. As at the reporting date, trade receivables amounting to Rs.864,464 are considered 'doubtful'. Other trade receivables are considered 'performing' including those past due as there is no significant increase in credit risk in respect of these receivables since initial recognition. The ageing analysis of trade receivables as at the reporting date is as follows:
- **Ageing analysis of the trade debts**

Particulars	Note	2026	2025
		----- Rupees -----	
Neither past due nor impaired			
1 - 30 days		55,204,247	66,040,029
Past due but not impaired			
31 - 60 days		36,658,275	25,909,920
61 - 120 days		1,685,350	17,723,201
More than 120 days		2,681,660	2,851,909
		41,025,285	46,485,030
Past due and impaired			
More than 120 days		1,740,502	17,238
		97,970,034	112,542,297

(iii) Deposits and other receivables

- These include receivables from custom authorities against rebates and duty drawbacks on export sales revenue.
- For other receivables, the Company has applied the 12 months ECL to measure the loss allowance. The Company determines the expected credit losses on deposits by using internal credit risk gradings. As at the reporting date, Rs.0.99 million (2025: Rs. 0.99 million) are considered 'doubtful'. Other deposits are considered 'performing' as there is no significant increase in credit risk in respect of these since initial recognition.
- For bank guarantee margin, these are placed with financial institutions with reasonably high credit ratings and therefore no credit loss is expected. Accordingly no loss allowance has been made.

(iv) Bank balances

- Due to the Company's long standing business relationships with the bankers and after giving due consideration to their strong financial standing. They have reasonably high credit ratings as determined by various independent credit rating agencies. Considering their strong financial standing, management does not expect any credit loss. The external credit ratings of the Company's banks as follows:

Bank	Rating		Agency	2026	2025
	Short term	Long term		Rupees	
- Faysal Bank Limited	A1+	AA	PACRA	25,263	23,327
- Askari Bank Limited	A1+	AA+	PACRA	43,025	14,384

- Industrial Development Bank Limited	N/A	N/A	N/A	17,240	17,240
				341,934	2,501,762

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED JUNE 30, 2026

- Due to the Company's long standing business relationships with these counterparties and after giving due consideration to their strong financial standing, the management does not expect non-performance by these counter parties on their obligations to the Company. Accordingly, the credit risk is minimal.

(e) Concentrations of credit risk

- The Company determines concentrations of credit risk by type of counterparty. Maximum exposure to credit risk, as at the reporting date, by type of counterparty is as follows:

Financial assets at amortized cost	2026	2025
	-----Rupees-----	
Utility companies & local government body	6,569,548	6,569,548
Customers	115,818,093	112,525,059

- There are no significant concentrations of credit risk, except for trade receivables. The Company's 7 (2025: 6) significant customers account for Rs. 83.3 million (2025: Rs. 101.4 million) of trade receivables as at the reporting date, apart from which, exposure to any single customer does not exceed 35% (2025: 35%) of gross trade debt balance as at the reporting date. These significant customers have long standing business relationships with the Company and have a good payment record and accordingly non-performance by these customers is not expected.

39.1.3 Liquidity risk

The Company manages liquidity risk by maintaining sufficient cash and the availability of funding through committed credit facilities. Following are the contractual maturities of financial liabilities, including interest payments.

- There are no significant financial assets and financial liabilities that are subject to offsetting, enforceable master netting arrangements and similar agreements.

40 FAIR VALUES OF FINANCIAL ASSETS AND LIABILITIES

- Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction in the principal (or most advantageous) market at the measurement date under current market conditions (i.e. an exit price) regardless of whether that price is directly observable or estimated using another valuation technique.
- The different levels of fair valuation method have been defined as follows:
 - **Level 1** Quoted prices (unadjusted) in active markets for identical assets or liabilities.
 - **Level 2** Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices).
 - **Level 3** Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs).
- The Company recognizes transfers between levels of the fair value hierarchy at the end of the reporting period during which the transfer has occurred.
- The Company's policy for determining when transfers between levels in the hierarchy have occurred includes monitoring of the following factors:
 - changes in market and trading activity (e.g.. significant increases / decreases in activity)
 - changes in inputs used in valuation techniques (e.g. inputs becoming / ceasing to be observable in the market)
